

## Skin Perfecting Setting Powder CC-LP 001

Talc-free setting powder with a smooth, creamy, weightless finish. It has an anti-caking feature that prevents clumps and allows seamless blend into the foundation. Apply just the right amount to prevent that thick, unnatural look under bright lights.

**APPLECARE PDS 300** provides even distribution of powders to provide a smooth sensory and better adhesion on the skin, which enables a nude look without caked-on makeup.

### APPLECARE PDS 300

- 🍏 Serves as a **liquid binder** to bind up to 90% powder in the formulation.
- 🍏 Keeps pigments from re-agglomerating, creating a lighter, smoother texture during application.
- 🍏 Boosts setting powder functionality, requiring less powder during application to achieve that mattefying effect.
- 🍏 Provides color correcting effects while creating more "true" color shades for more accurate color matching.

PHASE	INCI NAME (TRADE NAME)	USAGE (WT%)
<b>A</b>	Titanium Dioxide	2.00
	Yellow Iron Oxide	1.00
	Red Iron Oxide	0.50
	Black Iron Oxide	0.10
<b>B</b>	Mica	70.4
	Poly (Methyl Methacrylate)	10.0
	Corn Starch Modified (Dry Flo AF PURE)	3.00
	Silica (Aerosil(R) 200)	3.00
<b>C</b>	C13-15 Alkane (Hemisqualane)	2.50
	Applecare PDS 300	7.30
	Preservative	0.20

## Processing Method

1. Mix and grind part A in a grinder. Add into part B and blend until homogenous.
2. Separate part C into several small portions. Add one small portion into part A/B each time and blend until homogenous.
3. Grind the mixture again and sieve into container.
