

*Natural Look Moisturizing Lip Gloss Pot, V3*

A super hydrating, glistening lip gloss with great pick-up and **natural- looking** shine without tackiness.

1. Instantly softens, nourishes and hydrates chapped lips.
2. Glossy and flexible film-former that seals moisture on lip and greatly increases wear.
3. Smooth and gliding without being greasy or sticky.

- **OleoFlex EG 200:** An elastomeric gel and a film former
- **OleoFlex FG 100:** A honey-like flowing gel

Both build the consistency of the oil phase, especially the vegetable oils, with a micro-sponge structure. It forms a flexible, vegetable oil-based film on skin, sealing the moisture and increasing long wear without a heavy, greasy sensory.

#	INCI Name, (Trade Name)	Wt %	
1	<b>OleoFlex FG 100</b>	<b>50.0</b>	<p><b>Process:</b></p> <ol style="list-style-type: none"> <li>1. Mix ingredients of # 1-10 with a propeller at 75 -85C to a homogenous solution.</li> <li>2. When cool down to 55 -60C, add #11 while mixing with a Silverson homogenizer.</li> <li>3. At 50 -55C, mix #12 with a propeller.</li> </ol> <p>** The final texture may take a few days to develop fully at room temperature.</p>
