

InvisiGlide Mineral Sunscreen Stick, SPF 40

- Only 20% ZnO solid content for a convenient, on the go sunscreen stick to achieve SPF 40.
- Easy-to-glide, invisible sunscreen stick with incredible light and smooth sensory.
- **OleoFlex FG 100** and **OleoFlex EG 200** further improve transparency, gliding ability, sensory and film deposition.

➤ **G-Block DZ 370 CCT:** Fine and stable dispersion 70 % of UV grade Zinc Oxide with broad-spectrum sun protection benefit, excellent transparency and velvet sensory. Ideal for premium market.

➤ **OleoFlex FG 100:** A honey-like flowing gel

➤ **OleoFlex EG 200:** An 3-D elastomeric gel and a film former

Both build the consistency of the oil phase, especially the natural oils, with a micro-sponge structure. It forms a flexible, **natural, oil-based film** on skin, sealing the moisture and increasing long wear without a heavy, greasy sensory.

INCI Name, (Trade Name)	Wt %	Formulation Process:
G-Block DZ 370 CCT	29.0	
Jojoba ester	12.0	<ol style="list-style-type: none"> 1. Mix all ingredients with a propeller at 90 C for 15 mins. 2. Hand mix for 1-2 mins for temperature to reduce to ~80 C. Then add isododecane and hand mix for 1 minute. 3. Pour into mould and allow it to solidify.
