

No-Emulsifier

Hydrating Face Lotion (SC-F 025)

An emulsifier-free face lotion with a lighter, water-fresh texture than conventional lotions on the market. Fast absorbing with a refreshing, hydrating afterfeel, this lotion features that high end sensory profile while using only low cost emollients like glycerin and mineral oil.

Sensogel, a sensorial rheology modifier for emulsion systems that provides a surprisingly non-tacky, "super-fresh" sensory with a quick-absorbing feature. Stable, consistent performance makes it easy to create a range of textures from sprays to butters by simply varying the usage rate.

Sensogel also serves as an emulsifier in cold processing conditions.
